We approve the course of Governor Tilden. He knew that the man to be honored was a fraudulent President, and refused to lend the weight of his sanction by his presence to a usurper of the Presidency. Like every body else, Governor Tilden recognizes the authority of Hayes as de facto President. But his rightful occupancy of the position he denies, and refuses of the United States he cannot, in selfrespect, do honor to an usurper-condone with crime by embracing the criminal. REPUBLICAN DUPLICITY. The Hayes wing of the Republican party i playing a destable game of dissimulation and hypocrisy. The southern people are told that he President has liberated them, removed the troops and done all that could have been xpected of Tilden. For this huge generosty the southern Democrats are expected to bandon and dissolve their organization and rally to the support of the President. While the Hayes organs are laboring to delude the outhern people with this sort of chaff, they tell the northern Republicans that they ought to stand by their President, as he is true to the party that elected him, and has done nothing for the south which had not already been accomplished through Grant and the Democratic party. As evidence of this duplicity, read the following extract from the Chicago Tribune: "The idea is sought to be conveyed that Hayes has given up to the enemies of liberty-the Democrats. Here is a State unequalled by any now trading with you. Her products all must reach an eastern market. There is no western rival to Memphis. If you go one hundred, three hundred or five hundred niles west, that trade must all come eastward. Need I say it goes to St. Louis, Mem-phis or New Orleans? Memphis has all the advantage of distance, but St. Louis is counting time on her. St. Louis is about three hundred and sixty miles from Lattle Rock, while Memphis is only one hundred and thirty; yet the passengers who leave Little Rock at two o'clock in the afternoon for St. Louis reaches that city at eight the next morning, while the passengers for Memphis, aving Little Rock at the same hour, reaches here at eleven o'clock at night, or not an hour sooner for business. St. Louis is steadiutilizing time, fast trains, etc., and, as I said before, the only way for Memphis to secure the trade and travel of south Arkansas is to get the Texas Pacific to come here by have showered ridicule and severe critics way of Camden, PinelBluff and Devalls Bluff. Sr. Louts, May 20.—General Ord passed brough here last night from Texas, en route o Chicago, to consult, it is said, General eridan regarding a threatened invasion of Mexico from the Texas border. Several pron-inent citizens of San Antonio, Texas, includng Colonel Baker, depot quartermaster at San Antonio, arrived here on the same train, and report much more alarm along the Texas entier with reference to the movements of x-President Diaz, of Mexico. They say that erdo is making great efforts to reinstate imself as president of Mexico; that there is much activity along the Rio Grande by his partisans; that General Escobedo and Padro assues are his chief supporters; that the latter has raised and equipped six hundred cavalry within a few days past; that several shipments of arms recently arrived at San Autonio; that recruiting is rapidly going on and that Lerdo evidently intends to make American soil his base of supplies and operations until he is strong enough to take a stand in Mexico. This is what alarms the Americans on the border, and these gentlemen from San Antonio say that General Ord has gone to Checago to lay the matter before General to what course he shall pursue. It is als said that Lerdo will probably make his fire movement in about ten days. The Americans regard his attempt to regain the presi dency as a forlorn hope; that his defeat is certain, and that it will revive the border troubles, and subject the Americans along the Rio Grande to robbery and outrage by Mexi can bandits, who will swarm across the river

In her noble efforts to do emething to better the condition of al women who are less fortunate than herself, she has gained the love and admiration of all women who think of other things save self. and I have heard ber complimented highly by men of line intellectual culture. There are hundreds of women here who would go subject, and not grow tired. She knows what she is talking about—being well informed on all subjects—and is not afraid to speak the truth; in fact, she is the embodiment of all that is lovely, noble and grand in woman. "Fairness" wants to know of what material the sons of Michael Risback were omposed, etc. I don't think there was any ost-worten at the time, or chemical proces o find out. It was only mentioned by Mrs Meriwether as an illustration, showing how much better our condition of to-day is than it vas in ancient times, etc. I did not hear her empare the human family to a herd of cattle, or say that women lived on coarse, hard food, while men lived on luxuries. But I know some husbands that fail to provide food at all for their wives, either bard or soft. She did ot say that men made laws to exclude women certain specified vocations-but you nust acknowledge, after reading of the unallant conduct of Governor Robinson, of

The same soil and climate are found in each, and I have no doubt that the finest grape lands in the Union, save, perhaps, California, are to be found in the country around Little Rock, and one hundred miles south and west of it. It may also be added, that Germans, wiss and Italians are rapidly planting vine yards there, and some of the finest wine I ever drank was raised there. My friend, Judge John R.
